## ClearZal® BAC Antimicrobial Nail Solution w/Nail File 1oz Twist Cap

Item Code: DD 201 US BAC

ClearZal® BAC is a clinically supported antimicrobial nail solution formulated to eliminate fungus, bacteria, and viruses—not just fungus alone.

With Benzalkonium Chloride (BAC) as its powerful broad-spectrum active, it addresses up to 50% of nail infections that antifungals miss.

Unlike many harsh treatments, ClearZal® BAC is alcohol-free, fragrance-free, and enriched with Aloe Vera to help soften and condition the nails and surrounding skin.

It's safe for use with nail polish, artificial nails, and extensions, making it a discreet and effective choice for anyone struggling with hard-to-treat or recurring nail issues.

### Key Ingredients

- Benzalkonium Chloride (0.1%)
  A fast-acting, FDA-recognized antimicrobial agent that kills a broad range of bacteria, fungi, and viruses.

- Aloe Vera:
  Moisturizes and softens thick, dry, or damaged nails and surrounding skin.

- Purified Water:
  Provides a clean base for the formula.
- Surfactant Complex:
  Ingredients like Cocamidopropyl Betaine and Cocamidopropylamine Oxide help deliver the active ingredient deep under the nail and into the affected areas.

---

## Directions for Use

1. File the Nail:
   Use the included nail file to gently debride (file) the top and free edge of the affected nail. This improves penetration.
2. Clean & Dry:
   Clean the nail and surrounding skin. Dry thoroughly before applying.
3. Apply the Solution:
   Apply a drop of ClearZal® BAC under the free edge of the nail and to the surrounding nail bed area.
4. Massage or Let Dry:
   Massage gently into the skin or allow the product to air dry.
5. Use Twice Daily:
   Apply morning and night for best results. Ensure application before wearing socks/shoes and after removing them.

## Why Choose ClearZal® BAC Over Traditional Antifungals?

Most nail products only target fungus, but research shows that up to 50% of nail infections are caused by bacteria or viruses, not fungi alone.

ClearZal® BAC's broad-spectrum antimicrobial formula goes beyond antifungals to fully treat the underlying cause of many nail conditions.

Its non-invasive, gentle, and effective delivery system makes it an ideal choice for those who want healthier nails without harsh chemicals or restrictions on nail cosmetics.
