ClearZal® Antimicrobial Foot Sanitiser 4oz Sprayer

Item Code: DD 804 FK

Daily Foot Hygiene for Protection, Prevention & Freshness

ClearZal® Antimicrobial Foot Sanitiser is a clinically formulated spray designed to eliminate 99% of fungi, bacteria, and viruses that cause common foot infections, including athlete's foot.

Suitable for use on feet, shoes, and socks, it helps treat active infections while preventing re-infection and the spread of microbes in high-risk environments.

For ease of use, the bottle is equipped with a 360° spray nozzle that functions effectively whether held upright or upside down—ensuring thorough coverage of all areas of the foot, including hard-to-reach spots between the toes and along the soles.

ClearZal® Antimicrobial Foot Sanitiser is ideal for daily foot care at home, in the gym, or in any shared space.

Key Benefits

- Eliminate Foot Fungus, Bacteria & Viruses
  Effectively eliminates 99% of common foot pathogens including those that cause athlete's foot, fungal infections, and skin irritation.
- Prevents Re-Infection
  Sprays directly onto feet, shoes, and socks to reduce the risk of cross-contamination and recurring infections.
- Controls Odor
  Targets odor-causing bacteria to keep your feet and footwear fresh throughout the day.
- Soothes & Heals Irritation
  Formulated with tea tree oil, a natural antiseptic known for its calming, healing, and deodorizing properties.
- Easy, 360° Application
  Designed with an ergonomic spray nozzle that works from any angle—even upside down—for complete foot coverage.
- Ideal for Active Lifestyles
  Perfect for athletes, gym-goers, swimmers, and anyone frequently exposed to communal spaces like locker rooms and showers.

Key Ingredients

1. Benzalkonium Chloride

Antimicrobial agent

- Action against bacteria:
  Benzalkonium chloride is a broad-spectrum quaternary ammonium compound that works by disrupting the cell membranes of bacteria. This causes the bacteria to break down and neutralize, effectively stopping their growth and spread.
- Odor control benefit:
  By destroying odor-causing bacteria on the skin and in shoes, it helps eliminate one of the main sources of persistent foot odor.

2. Tea Tree Oil

Natural antiseptic and deodorizer

- Action against bacteria:
  Tea tree oil contains terpenes, particularly terpinen-4-ol, which have strong antibacterial and antifungal properties. It penetrates microbial cell walls, interfering with their metabolism and leading to cell elimination.
- Odor control benefit:
  In addition to eliminating bacteria, tea tree oil neutralizes unpleasant smells and leaves a refreshing, natural scent—making it effective in both treating the cause of odor and improving overall foot freshness.

Combined Action

Together, benzalkonium chloride and tea tree oil offer a dual approach:

- Immediate sanitization by eliminating bacteria on contact
- Ongoing protection against bacterial regrowth
- Deodorizing effect that targets both the cause and the symptoms of foot odor

This synergy makes ClearZal® Antimicrobial Foot Sanitiser not only effective in treating infections but also in maintaining fresh, clean-smelling feet and footwear.

Ideal For

- Athletes & Active Individuals
  Frequent exercise, sweat, and shared locker rooms or showers can create ideal conditions for fungal infections like athlete's foot.
- Gym-Goers & Swimmers
  Regular users of communal spaces such as swimming pools, gyms, and public showers. Ability to sanitize and prevent cross-contamination.
- People with Foot Odor Concerns
  Its antimicrobial and deodorizing properties help neutralize bacteria that cause unpleasant foot and shoe odors.
- Individuals Prone to Athlete's Foot or Fungal Infections
- Those Who Wear Enclosed Footwear for Long Periods
  Workers in boots or anyone wearing tight, non-breathable shoes all day can benefit from regular use to control moisture, odor, and microbial buildup.
- Anyone Practicing Preventative Foot Care
  A convenient addition to a daily hygiene routine, even for those without active infections, as a proactive measure.

Directions for Use

1. For Feet:
   Spray once daily on clean, dry feet—covering the tops, soles, and between the toes.
2. For Footwear:
   Spray inside shoes and socks both before and after wearing them to prevent contamination and eliminate lingering microbes.

For best results, use daily as part of a comprehensive foot hygiene routine, especially after physical activity or exposure to communal areas.

Safety Warnings

- For external use only.
- Avoid contact with eyes. If contact occurs, rinse thoroughly with water.
- Keep out of reach of children.

ClearZal® Antimicrobial Foot Sanitiser is a multi-action formula that does more than treat surface symptoms—it helps create a sanitized, healthy environment for your feet.

By targeting both the source of infection and potential breeding grounds like shoes and socks, it provides a dual approach to treatment and prevention.

Whether you're managing an active infection or simply looking to maintain daily foot hygiene, ClearZal® Antimicrobial Foot Sanitiser is an effective, no-fuss solution for healthier, fresher feet.
